Sri Madvirat Veerabrahmendra Swamy Charitra HD. Peanut butter is a tasty but messy food. During childhood, you may find it difficult to eat peanut butter without making a mess. But one mother shares that after giving birth, she finds it harder than ever to eat peanut butter. However, she finds it easier to keep it out of her baby's mouth. A baby's palate is not fully developed until approximately six weeks old, and taste buds begin forming at 4 to 5 months. This is a critical time for mom. She's dealing with breastfeeding, bottle-feeding, baby food and baby's developing taste buds. That's why it's best for mom to feed a little bit of plain (unsalted) peanut butter to her baby, and then to let it sit for about five minutes before mom pours the rest on her fingers. At this age, babies' palate may not be able to handle the intense taste of peanut butter. For a few minutes, mom should offer peanut butter to her baby without allowing her baby to swallow it. Mom may need to continue this practice throughout the first year of baby's life. If mom has some peanut butter on hand, she should be willing to give it to her baby on a few occasions, before it's time to give her baby water or milk. A mom may find it easy to stick to this practice when her baby is a toddler. However, when children get older, they may refuse to let mom feed peanut butter to them. Don't give up on this soothing
